What is Radiation?

Radiation is energy, such as heat, light or radio waves, which moves through space or matter at high speed. It can be easily detected and measured using specialized instruments. In very large amounts, radiation can damage living cells.

Radiation comes from many natural and common man-made sources. Radiation from the sun and stars, radon from bedrock, radioactive elements in the foods we eat and materials we use to build our homes all come from natural sources. These natural forms of radiation are part of what is called background radiation.

Man-made radiation comes from sources such as X-rays, other medical procedures, microwave ovens and electric power plants.

The effect of radiation on the human body is measured in units called millirems. The average background radiation exposure in this area is about 600 millirems per year. About 50% of exposure to radiation in the U.S. comes from natural sources; the other 50% comes from man-made sources.

Sources of Radiation Exposure in the United States

Are you ready? Indian Point Energy Center

Keyword: R U Ready or Indian Point

How would I be notified of an emergency at Indian Point?

Special emergency sirens that produce a continuous, four-minute tone would alert people within 10 miles of Indian Point to tune to an Emergency Alert System (EAS) station for information about an emergency at Indian Point. If you hear the continuous, four-minute tone, listen to one of the EAS stations listed in this booklet for official information on what you should do.

These sirens are tested periodically throughout the year. Siren tests are announced in advance through local news media.

In addition to the sirens, a high-speed telephone service, an e-mail alerting service or web-based services such as NY-Alert could be used to notify and inform the public.

Anyone can sign up for NY-Alert online at https://users.nyalert.gov

How would I find out what I should do in an emergency?

Officials would use the Emergency Alert System (EAS) radio and television stations to provide information and instructions to the public. EAS stations in this area are listed on the next page. These stations would be the official source of information during an emergency.

Different areas could be directed to take different actions, so instructions will be provided in terms of the communities or areas within 10 miles of Indian Point. These areas are shown on the map attached to this booklet. Find your location on the map and listen carefully for information concerning your area.

Tune in for information

If you hear the emergency sirens, tune in your radio or TV to an Emergency Alert System (EAS) station for further information.

Remember: *The sounding of the sirens is not a signal to take any actions other than to listen to your radio or TV EAS station.*

EAS Stations

Primary EAS Radio Stations for the Hudson Valley

WLNA 1420 AM	WHUD 100.7 FM

Emergency information will also be carried on the following stations:

AM Radio	**Television**
WOR 710 AM	WCBS CH 2
WABC 770 AM	WNBC CH 4
WCBS 880 AM	WNYW CH 5
WINS 1010 AM	WABC CH 7
WFAS 1230 AM	News 12 Hudson Valley

FM Radio

WRPJ 88.9 FM
WOSR 91.7 FM
WNYC 93.9 FM
WJGK 103.1 FM

Note: All radio stations operate 24/7.

What might I be instructed to do?

You could be instructed to shelter-in-place, to evacuate, to take potassium iodide (KI) or to take no action. Officials would base any emergency instructions on the situation at Indian Point and where people are most likely to be affected. People in one area might need to take one action, while people in another area might take a different action or no action at all.

In all cases, avoid using telephones and cell phones to prevent overloading the system and interfering with emergency use.

Use the Emergency Supplies Checklist on the back of the attached map to help prepare your family plan in case you need to Shelter-in-Place or Evacuate.

Shelter-in-Place

If your area is instructed to shelter-in-place, you should remain indoors and limit the ways outside air can enter. You should:

- Keep family and pets inside
- Close windows and doors
- Turn off air conditioners and ventilation systems
- Extinguish fires in fireplaces and close dampers
- Listen to radio or TV for emergency information

Evacuation

Evacuation is a protective action strategy involving the orderly movement of people away from an actual or potential hazard. If your area is instructed to evacuate, you should gather the things you would need for a three-day stay and leave promptly.

Where should I go, if I have to evacuate?

Visit our interactive website
www.rocklandipready.com

You should go to the home of a friend or relative or other location outside the 10-mile area around Indian Point using the timeliest route. If you do not have another place to go, you can go to the Reception Center assigned to your area using the routes shown on the attached map. Temporary shelters will be available for those who need a place to stay.

If there has been a release of radioactive materials from Indian Point, monitoring and decontamination will be available at Reception Centers.

In an evacuation:

- Be certain that your area is one being ordered to evacuate. *Do not evacuate unnecessarily.*
- Remain calm, but act promptly
- Do not use the telephone to avoid overloading the system
- Contact neighbors directly to ensure they are aware of the emergency instructions
- Offer a ride to anyone you know who might not have a car
- Close windows and vents in your car and do not use the air conditioning until you have left the area
- Take one dose of Potassium Iodide (KI) if instructed to do so

Bring with you:

- clothing and blankets or sleeping bags
- prescription medicines
- personal items such as shaving kits, soap and cosmetics
- formula and other supplies for children and infants
- your checkbook, credit cards, cash and important papers

What if I need a ride?

Try to get a ride with a nearby friend or neighbor. If you cannot get a ride, free emergency buses will pick up passengers along the routes near your location and take them to the Reception Center for your area. Bus routes are shown on the Rockland County Bus Routes tab of this booklet.

For More Information on Family Preparedness, visit www.ready.gov

What is Potassium Iodide (KI)?

Potassium iodide is an over-the-counter medication that can block radioactive iodine from entering the thyroid gland if there were a serious emergency involving a large release of radioactive material. Potassium iodide is often referred to by its chemical abbreviation, KI.

If Emergency Alert System (EAS) messages direct people in your area to take potassium iodide, follow the instructions on the packaging, or those provided in the EAS message.

During an evacuation, potassium iodide is available at Reception Centers.

To obtain KI prior to any emergency for you and your family:

- **Visit the Rockland County Fire and Emergency Services Office located at 35 Firemen's Memorial Drive, Pomona, NY 10970 (M-F 9am-5pm), if you have any questions, please call 845-364-8800.**
- **KI is also available for purchase at many pharmacies.**
- **Most schools in the Emergency Planning Zone (EPZ) have a supply of KI for school children. Check with your school administrator for specifics.**
- **Reception Centers maintain a supply of KI for evacuees.**

Recommended Doses of KI for Different Risk Groups

	KI dose (mg)	# ml liquid (65 mg/ml)	# of 65 mg tablets	# of 130 mg tablets
Adults over 40 yrs Adults over 18 through 40 yrs Pregnant or lactating women	130	2	2	1
Adolescents over 12 through 18 yrs who weigh at least 150 pounds	130	2	2	1
Adolescents over 12 through 18 yrs who weigh less than 150 pounds	65	1	1	1/2
Children over 3 through 12 yrs	65	1	1	1/2
Over 1 month through 3 years	32	1/2	1/2	USE KI ORAL SOLUTION
Birth through 1 month	16	1/4	USE KI ORAL SOLUTION	USE KI ORAL SOLUTION

Source: US FDA, 2011

For more information on KI, visit Centers for Disease Control and Prevention www.emergency.cdc.gov/radiation/ki.asp.

What if my children are in school?

Officials may relocate children in schools to assigned school reception centers as a precautionary measure, even if there is no evacuation of the general public. Staff have been trained and will travel with students to these school reception centers.

The list below shows the assigned school reception centers for each school within 10 miles of Indian Point. Parents and guardians can pick up their children from these school reception centers. Please check with your child's school or childcare facility to learn more about relocation planning and parental pick-up plans.

For an up-to-date listing of schools and school reception centers please refer to the Fire & Emergency Services web page at www.rocklandipready.com

School Reception Centers

BERGEN CATHOLIC HIGH SCHOOL, 1040 Oradell Avenue, Oradell, New Jersey 07649

Bais Malka (Girls)
Cornerstone Christian Community School
Grandview Elementary School

Directions to School Reception Centers

BERGEN CATHOLIC HIGH SCHOOL, 1040 Oradell Avenue, Oradell, New Jersey 07649
Directions from Palisades Interstate Parkway
Travel south on the Palisades Interstate Parkway to the New York State Thruway (Interstate 87/287). Take Interstate 87/287 north toward Albany. Exit on the Garden State Parkway (Exit 14A) toward New Jersey. Travel south on the Garden State Parkway to Exit 165 (Ridgewood/Oradell). (Follow directional signs to Oradell). Bear right onto East Ridgewood Avenue. East Ridgewood Avenue becomes Oradell Avenue. Travel approximately one mile. Bergen Catholic High will be on the left (corner of Oradell Avenue and Forest Avenue).

BERGEN COUNTY VOCATIONAL TECHNICAL HIGH SCHOOL, Paramus Special Needs, East 275 Pascack Road, Paramus, New Jersey 07652
Directions from Palisades Interstate Parkway
Travel south on the Palisades Interstate Parkway to the New York State Thruway (Interstate 87/287). Take Interstate 87/287 north toward Albany. Exit on the Garden State Parkway (Exit 14A) toward New Jersey. Travel south on the Garden State Parkway to Exit 165 (Ridgewood/Oradell). Exit 165 merges onto East Ridgewood Avenue. (Follow directional

Directions to School Reception Centers

continued

signs toward Oradell). At fist traffic signal, make a right turn onto Pascack Road. Bergen County Vocational Technical High School will be 1/4 mile ahead on the left. Note: Roadway in front of school is divided. Proceed 1/4 mile to first traffic signal (U-turn lane).

BERGEN COUNTY VOCATIONAL TECHNICAL HIGH SCHOOL, Central Technical Education Center, East 285 Pascack Road, Paramus, New Jersey 07652
Directions from Palisades Interstate Parkway
Travel south on the Palisades Interstate Parkway to the New York State Thruway (Interstate 87/287). Take Interstate 87/287 north toward Albany. Exit on the Garden State Parkway (Exit 14A) toward New Jersey. Travel south on the Garden State parkway to Exit 165 (Ridgewood/Oradell). Exit 165 merges onto East Ridgewood Avenue. (Follow directional signs toward Oradell.) At first traffic signal, make a right turn onto East Pascack Road. Bergen County Vocational Technical High School will be 1/4 mile ahead on the left. Note: Roadway in front of school is divided. Proceed 1/4 mile to first traffic signal (U-turn lane).

DOMINICAN COLLEGE, 470 Western Highway, Orangeburg, NY 10962
Directions from the Palisades Interstate Parkway
Travel south on the Palisades Interstate Parkway to Exit 6E, Orangeburg Road. Merge onto Orangeburg Road. At second traffic signal, make a left hand turn onto Western Highway. Travel approximately 3/4 mile. Dominican College's Hennessy Center will be on the right.

ROCKLAND COMMUNITY COLLEGE, 145 College Road, Suffern, New York 10901
Directions from North Rockland High School
Travel to intersection of Hammond Road and Suffern Lane (County Route 94). Right turn onto Suffern Lane to Thiells Mt. Ivy Road (County Route 47). Left turn onto Thiells Mt. Ivy Road. Thiells Mt. Ivy Road to Route 202. Right on Route 202 to Route 306. Left on Route 306 to Viola Road (County Route 74). Right on Viola Road to Rockland Community College. Enter the college via the parking area off Viola Road.

SOUTH ORANGETOWN MIDDLE SCHOOL, 160 Van Wyck, Blauvelt, NY 10913
Directions from Felix Festa Middle School
Travel west on Parrott Road (Parrott Road becomes Germonds Road). Travel on Germonds Road to South Little Tor Road (County Route 33). Left on Little Tor Road to Palisades Interstate Parkway. Palisades Interstate Parkway South to Exit 6E (Orangeburg Road). At second traffic signal, make left hand turn onto Western Highway. Travel approximately one and a 1/2 miles on Western Highway.
At second traffic signal, make left hand turn onto Erie Street. Parking lot entrance to school will be one 1/2 mile on left. (School is on corner of Van Wyck and Erie.)

ST. JOSEPH'S REGIONAL HIGH SCHOOL, 40 Chestnut Ridge Road, Montvale, New Jersey 07645
Directions from Village of Spring Valley
Travel south on Route 45 through the Village of Spring Valley to New Jersey (Route 45 turns into Chestnut Ridge Road in New Jersey). Once in New Jersey, St. Joseph's Regional High School is approximately two miles ahead on the right.

ST. THOMAS AQUINAS COLLEGE, Route 340, Sparkill, New York 10976
Directions from Palisades Interstate Parkway
Travel south on the Palisades Interstate Parkway to Exit 5N (Route 303 – Orangeburg). Merge onto Route 303 North. At first traffic signal, make a right turn onto Route 340. Travel approximately 1/4 mile. St. Thomas Aquinas College is on the left.

Routes

If you do not have your own transportation out of the area, you can ride one of the buses provided to take you to a Reception Center or arrange a ride with a neighbor. Following is a list of evacuation bus routes and stops in Rockland County. If residents of your area are advised to evacuate, locate the nearest bus stop. You will be advised over the EAS when the buses will begin picking up.

Bus # Bus Stops

Village of Haverstraw

Route 31

- Haverstraw Place
- Green Hills Adult Home (at Fairmount Ave)
- Assisted Living at Northern Riverview

What about facilities such as hospitals, nursing homes and correctional facilities?

Hospitals, nursing homes and other facilities within 10 miles of Indian Point have emergency plans to keep their residents safe, including provisions for transporting residents to host facilities.

If you have a family member in a facility and require information about their emergency planning initiatives, please contact the facility administrator.

What about people with special needs?

If you have a special need, such as mobility impairment, visual or hearing impairment, or need specialized transportation or equipment, prepare an emergency plan with family, friends or neighbors. If necessary, the County will make special arrangements for you.

Call 845-364-2020 or
visit our website www.rocklandregisters.com

What about pets and livestock?

If you are directed to evacuate, you will want to take your pets with you. Pets would not be permitted in Reception Centers or temporary shelters (except for service animals such as seeing-eye dogs). Pet owners are encouraged to explore alternatives for their pets, such as boarding kennels, friends or relatives outside the 10 mile area.

If you have livestock or agricultural products, useful information is available from the New York State Department of Agriculture website www.agriculture.ny.gov or call 1-800-554-4501 or call your local Cooperative Extension Office.

The county is developing limited emergency kennel space at Reception Centers. This is being done to accommodate people who cannot make other arrangements for their pets beforehand. Pet owners should plan to bring their own supplies, including food, leashes, cages and carriers etc. Trained volunteers may be available to assist owners with pet care and feeding. Please be mindful that space at these locations is limited, so we encourage everyone to make other plans for their pets before the emergency.

Leave No Animal Behind

- Arrange with friends or relatives to provide temporary shelter for you and/or your pets.
- Make a list of pet-friendly hotels and motels outside your area. (You can look them up online at www.petfriendlytravel.com or www.petswelcome.com)
- Ask your veterinarian and boarding facilities if they provide emergency care and boarding during a disaster. (Also identify an alternate veterinarian or boarding facility outside the 10 mile area.)

Identify all your pets:

- Microchip your pet
- Make sure your pet is wearing a collar or harness with identifying tags on it. Include your phone number and an alternate phone number of someone outside your area
- Put leg bands on all birds and ID tags on all pocket-pet cages

Pet Emergency Kit

Gather these things in advance:

- Your pet's vaccination and medical records together with your veterinarian's phone number in a watertight plastic bag. (Warning: A shelter or boarding facility may NOT take your pet without current vaccinations!)
- Current photographs of you and your pet together.
- Medication your pet is taking.
- Pet food & bottled water for 3–14 days.
- Pet food dishes and manual can opener.
- Cages/carriers for all pets. Carriers must be big enough to allow your pet to stand, turn around and lie down. (Temporary shelters may NOT have cages available, therefore you MUST provide your own!)
- Blankets or towels for bedding and warmth.
- Leashes, harnesses, muzzles (if needed).
- Cat litter, a litter pan and scoop.
- Plastic bags for disposal of waste, paper towels, disposable gloves, disinfectant.
- First aid kit: gauze, peroxide or antiseptic wipes, ointments, adhesive tape.
- Treats, toys, brushes, combs.

If you absolutely MUST leave them...

- Put a sign or sticker in a front window identifying all pets inside. Include your name, phone numbers and where you are staying. Include the name and number of a contact outside the area. Put ID tags on all pets.
- Keep dogs and cats in separate rooms.
- Leave as much food & water as you can.
- Open up bags of dry food.
- Fill many large bowls with water.
- Contact authorities and animal rescue groups immediately with information about the location of your animals.

- ❑ _____
- ❑ _____
- ❑ _____
- ❑ _____
- ❑ _____

How are emergencies at nuclear power plants classified?

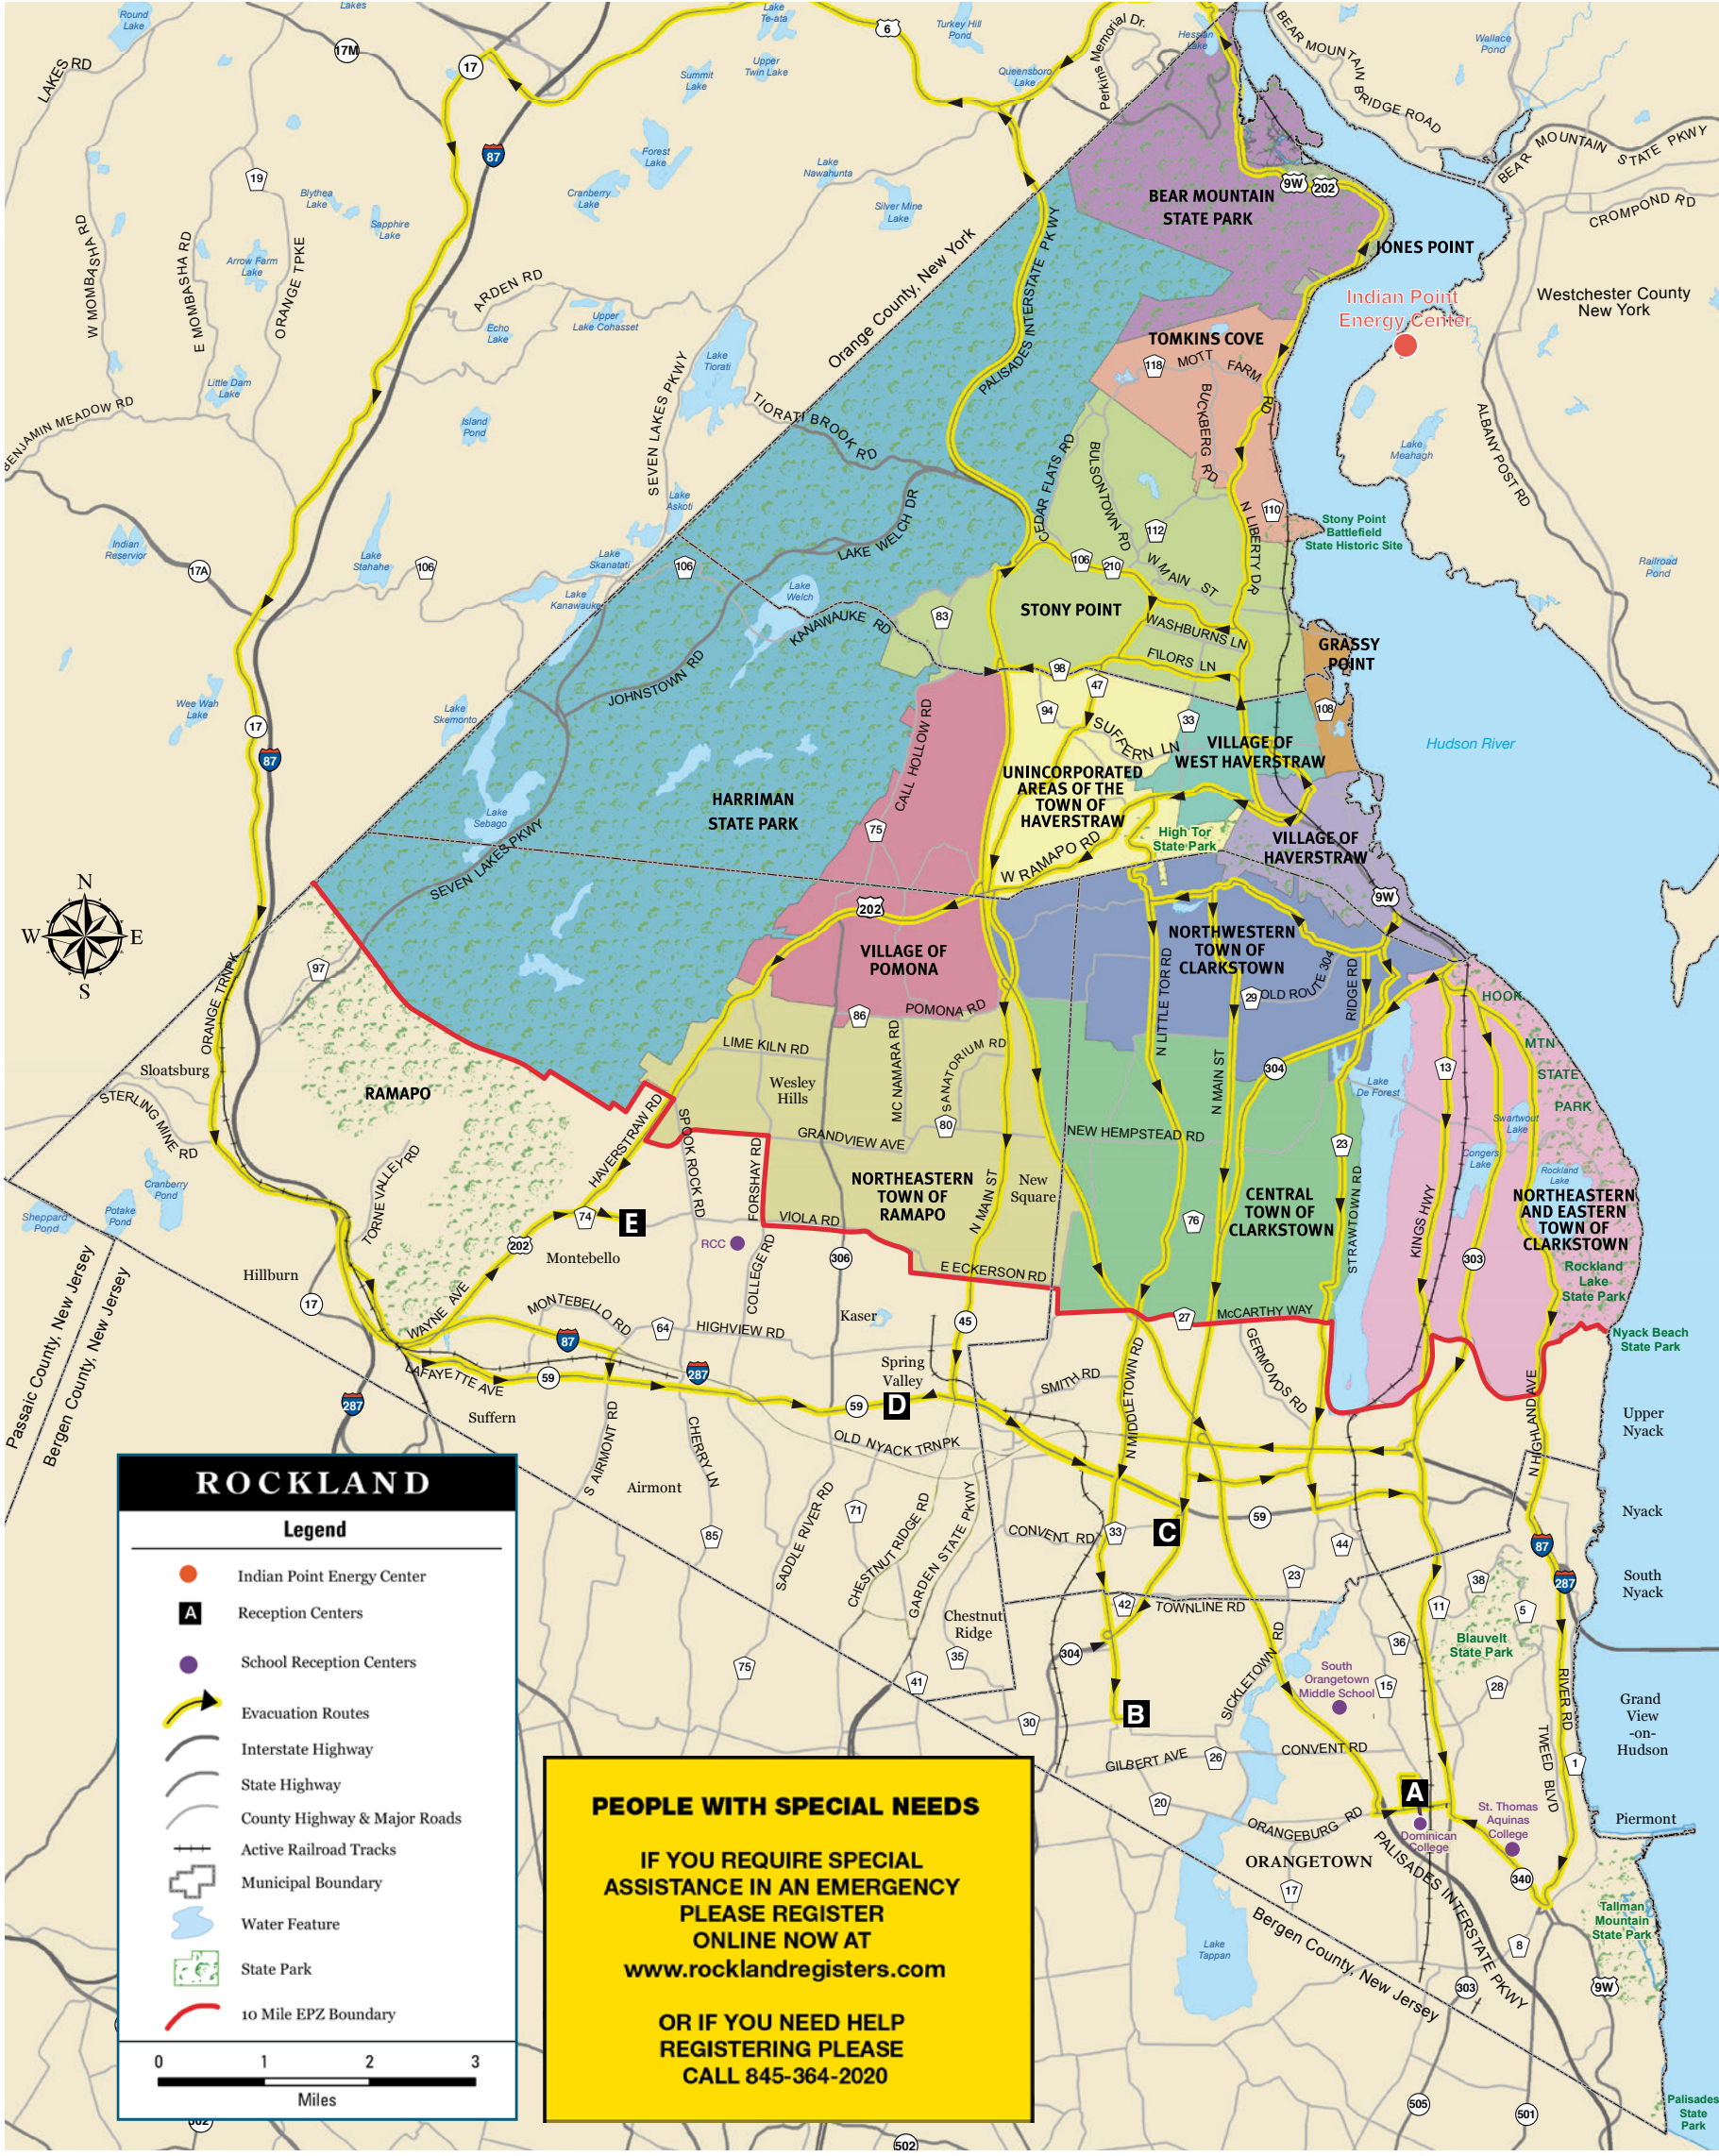
The federal government established four classifications for emergencies at nuclear power plants. In order from the least to most serious, they are:

> An **UNUSUAL EVENT** indicates a potential problem with the operation of the plant. Officials are notified, but no public action is necessary.

> An **ALERT** indicates an event that could reduce the plant's level of safety. Any release of radioactivity would be a small fraction of the federal guidelines. Residents should monitor the situation on television or radio.

> A **SITE AREA EMERGENCY** indicates a problem that substantially reduces the plant's level of safety. Releases of radioactivity outside the plant site would not be expected to exceed federal guidelines. Residents should monitor the situation on television or radio.

> A **GENERAL EMERGENCY** indicates a problem affecting safety systems in the plant that could lead to a release of radiation that would exceed the federal guidelines outside the plant. Protective actions may be ordered for some areas. Residents should monitor the situation on television or radio.



Protective Action Areas

- Bear Mountain State Park
- Central Town of Clarkstown
- Grassy Point
- Harriman State Park
- Jones Point
- Northeastern & Eastern Town of Clarkstown
- Northeastern Town of Ramapo
- Northwestern Town of Clarkstown
- Village of Pomona
- Stony Point
- Tompkins Cove
- Unincorporated Areas of the Town of Haverstraw
- Village of Haverstraw
- Village of West Haverstraw

Reception Centers

Reception center availability may vary depending on conditions. Residents should listen closely to local radio stations for information on reception center locations.
